15 SEP 1983

MEMORANDUM FOR: Members of the Computer Security Working Group

FROM: 25X1

Information Systems Security Group,
Office of Security

SUBJECT: Minutes of the Working Group Meeting on
25X1   6 September 1983

1. The Computer Security Working Group (CSWG) of the
CIA Information Systems Board held a meeting on Tuesday,
6 September 1983. Participants included Bob Crum, Information
Management Staff (IMS);   Office of SIGINT   25X1
Operations;   Analytic Support Group, Office of   25X1
Current Production and Analytic Support;   25X1
Office of Data Processing;   Office of   25X1
Communications: Office of Research and   25X1
Development;   Planning Staff, Office of the   25X1
Executive Director;   Office of   25X1
Central Reference;   Office of   25X1
Security; with   Director of Security, serving as   25X1
monitor.   25X1

2. The first order of business was the review and
approval of the minutes of the 16 August meeting.   25X1

3. The next item on the agenda was a briefing by Mr. Joe
            of IMS, Directorate of Operations (IMS/DO). The   25X1
briefing concerned the control and dissemination of documents
and the requirements of DCID 1/7 for compartmentation and
need-to-know. Joe mentioned that information profiles are
created and controlled by the individual analysts and that the
papercopy environment is presently more secure than the ADP
environment. He suggested SAFE as a pilot program to improve
control over DO information in data banks.   25X1

4. The CSWG charter was discussed. The balance between
data sharing and need-to-know was a focal point. It was gen-
erally agreed that the CSWG would provide a broad overview of
the field of computer security and related issues and would
examine existing programs, policies and requirements. Further
discussion of the charter was to continue at the next meeting.
